This is where your journey begins on the way to rediscovering your source.

## Chuan Body + Soul Treatments and the Five Elements

The foundation of our Chuan signature treatments is Traditional Chinese Medicine (TCM) and the five elemental forces of fire, earth, water, metal and wood. These life elements combined with your energy flow and the influence of hot and cold have great influence on your well-being.

Spending a moment to complete a five element questionnaire at the beginning of your journey ensures your therapy addresses the imbalances of your life elements. Your selected element may change on a daily basis and is affected by what you eat, the seasons of the year, as well as your bio-rhythms.

Our range of five-element essential oils, incense, candles, teas and juices have been created exclusively and in consultation with professionals in Chinese Medicine and Naturopathy.

## Traditional Chinese Medicine

Chinese medical practitioners use cultural beliefs to interpret the states of well being. Any disharmony of the equilibrium of yin and yang or disturbance of their flow can cause imbalance. The task of a Chinese Doctor is to restore such imbalance. Treatments include herbal medicine, acupuncture, moxibustion, massage, breathing exercise and diet. The aim is to supplement the deficiency of either yin or yang or to reduce the excess. The holistic approach of Chinese Medicine is to treat the body as a whole and address any imbalance.

Acupuncture is a form of therapy used within the coherent system of healing in China for thousands of years. Its focus is on improving the overall well being of the patient, in addition to treating specific symptoms. According to Traditional Chinese philosophy, our health depends on the body's circulating energy – known as Qi – moving in a smooth and balanced way through a network of meridians (channels) and collaterals beneath the skin. By inserting fine needles into the channels of energy, it can stimulate the body's own healing response and help restore its natural balance.

Each acupuncture treatment session includes time for intake history, needle placement and needle dwell time. 25 minute and 40 minute treatments are available based upon need and client preference.

## Acupuncture Therapies

Chuan Body + Soul's Traditional Chinese Medicine (TCM) treatment session includes a consultation by a qualified TCM Practitioner to interpret your states of well being. Prescribed treatment(s) may include:

### Jet Lag

25 min & 40 min

A simple, effective way to reduce fatigue induced by travel and disruption of our natural circadian rhythm.

### Smoking Cessation

25 min & 40 min

Meridian and auriculo (ear) therapy points help diminish the desire to smoke. The treatment helps to reduce stress and promote inner calm. Ear seeds may be added to the treatment for a \$10 additional fee.

### Food Cravings

25 min & 40 min

The desire to eat certain foods and to eat when one is not truly hungry can be addressed by the use of standard acupuncture points. Ear seeds may be added to the treatment for a \$10 additional fee.

### Stress Reduction

25 min & 40 min

Stress is ever present in our harried lives. Acupuncture is an excellent modality to alleviate the effects of internal and external stressors.

### Neck or Lower Back Tension

25 min & 40 min

Many of us have tense neck or low back muscles due to poor posture, long work hours and hectic lives. Acupuncture techniques complement the effect of massage on tense muscles.

### Extra Add-On

To complement your acupuncture treatment, we recommend the following:

- Electrical Stimulation - Pairs of acupuncture needles are attached to a device that generates continuous electric pulses between them. This practice can restore health and well being, and is particularly good for treating pain.
- Plum Blossom - The light tapping of an area on the body to move stagnant energy or to calm the mind.
- Ho Guan (Cupping) - Ancient Chinese practice in which a heated cup is applied to the skin and the pressure in the cup has therapeutic effects on the skin and superficial muscle layer.
- Moxibustion - To help strengthen the blood and stimulate the flow of Qi. The practitioner will light one end of a Moxa stick and hold it close to an acupuncture point for several minutes to bring about a pleasant heat sensation penetrating deep into the skin to facilitate healing.
- Ear Seeds - While ear points are often stimulated with needles in an acupuncture clinic, studies have shown to place a small seed on an ear point can achieve even greater results because the seed produces continuous stimulation.
- Heating Pads - Moist heat is used on specific areas of tension to help smooth the flow of energy in the body.
