CARAFE \$18

The *Sababa* Story

The word "*sababa*" is a popular slang term used in Hebrew and Arabic that conveys satisfaction and contentment, best manifested by the internationally recognized symbol of a "thumbs up"!

Sababa is the feeling our patrons experience when they bite into a falafel sandwich loaded with unique and delicious salads, pickles and sauces, or sip a cold beer after work with friends.

Naturally very healthy, the entirety of our menu is vegetarian except for the Chicken & Kofta and everything but our pita is naturally gluten free.

Our novel concept brings Middle Eastern street food to the public, using the highest quality ingredients presented beautifully. Our goal is to bring the pita sandwich and falafel into the mainstream of US cuisine.

Enjoy & B'tayavon!

We *cater* large parties and offices!
