

# FEELFREEATKONE

Kone is a new concept of sushi restaurant. To better describe this concept there's three main words, **exquisite**, **modern** and **share**. It's an all-new-way to peruse Japanese food. We have a strong Brazilian fusion on our recipes. Why is that? Well, the biggest colony of Japanese in the world is in Brazil. That tropical spirit mixed with the life changing experience of that community in a whole new environment, the American continent, have created a new complete **exquisite** experience, **modern** and innovative. And that's what we want to **share**. Welcome! Just for a glance, this is what you'll find at Kone. Our specialty is rolls, but not typical rolls, they are made in shape of cones. That's called Temaki , by the Japanese, Te (hand) maki (roll). Made by hand and eaten by hand, it became the most popular Japanese dish in Brazil. That's why we offer more than 30 different recipes and we are sure you'll love them. Ok, we don't want to tell all the surprises and our concept all in here, so we definitely encourage you to try it yourself this whole new experience. But if you're still curious and want to know more of what you'll find, we'll leave you some hints:
