

Presents Our 1st

Spanish-Style Sunday
Featuring
The Region of Galicia

The most attractive aspect of Galician Gastronomy is the wide variety available. Something that all the dishes have in common is the familiar way to cook the rich flavors and the abundance of content. It is exciting to know that a dish could be cooked with the same contents in one city of the region and have a different flavor when cooked in another city. We could say that Galician Cuisine is classic for taking beauty from the world and bringing the most simple elements together in a natural way.
