# EAT DRINK PLAY

### BOCCE RULES

Bocce is played with eight large balls and one smaller target or object ball called the jack. There are 4 balls to a side, or team, and they are made in two colors to distinguish the balls of one team from the 4 balls of the opposing team.

1. Flip a coin or randomly decide which team gets to throw out the jack and select ball color
2. Winner of coin toss throws out the jack into a prescribed zone
3. After the jack is successfully thrown, the same player must throw out the first bocce ball
4. Let the second team bowl their bocce balls until the point is taken or they have used all 4 balls
5. The first team gets to continue bowling all their remaining bocce balls
6. Allow the team who hasn't completed their throws to bowl out
7. Measure which team's bocce is closest to the jack
8. Score one point for each ball from the winning team that is closer than the closest ball of the other team
9. Switch ends on the bocce court and play another frame
10. Continue playing until a team gets 12 points
